Fixturing—Simple by Design.

INSPECTION<sup>™</sup>  
ARSENAL

LASER<sup>™</sup>  
ARSENAL

BOYLSTON, Mass. August 15, 2018 – Phillips Precision’s Products Division announces its newly modified Riser-Grip™ Clamp as part of the Inspection Arsenal® LEAN, Quick-Swap inspection fixture system. Not only does Phillips Precision offer the only quick-swap standard fixture systems, but they provide quick, creative fixture design and quick shipping of your orders. Inspection Arsenal® tooling will help optimize your inspection process and uncover hidden profits.

The redesigned Riser-Grip™ full-access clamps are now even more versatile. The two-piece design allows the top jaw containing a brass tipped set screw to adjust up and down and lock into place. V-grooves are added to the holding surface bi-directionally to secure small round parts for inspection. Threaded holes in the base accommodate stops. Riser-Grip™ is machinable and can be customized for your unique parts. Use for CMM and vision inspection. Able to secure parts of .0 to 2.1” (0mm to 53.3mm) in thickness. Clear anodized aluminum. Fits ¼-20, 1/2” and 1” fixture plate hole patterns. Inquire about Riser-Grip™ for metric hole patterns.

Inspection Arsenal® will **protect your company profits** in many ways.

- Enjoy a rapid return on investment
- Inspect more parts per shift
- Create multiple quick-swap setups per CMM
- Move fixtures from one machine to another
- Increase the number of employees who inspect
- Adapt and reuse existing fixtures effortlessly
- Access granite surface easily
- Use CMM palletization features
- Work toward lights-out inspections
- Use as dedicated tooling - add it to your job box
- Ships immediately, as product is ready-made

**Inspection Arsenal®** complements other fixturing you may have and the value makes converting from other techniques very cost effective. Plates with air-glide feature are made to order. Standard Loc-N-Load™ product is ready-made and the company has a same-day shipping policy so an order today can be improving efficiency by tomorrow.

For additional information visit [www.phillips-precision.com](http://www.phillips-precision.com) where you’ll find case studies and demo videos on all products that show just how fast and easy Inspection Arsenal® is to use.

**About Phillips Precision, Inc.**

Phillips Precision, Inc. of Boylston, MA is a full-service machine shop and work holding product innovator. Phillips designs, develops and markets work-holding products for manufacturers, in addition to providing custom fixture design services.
